Github: <https://github.com/ikmal16>

Driven Software Engineering graduate with a passion for technology, software development, and problem-solving. Experienced in frontend and backend development, database management, and software testing, with a strong commitment to continuous learning and professional growth.

Professional Experience

INTEMATICS SDN BHD

Information Technology Intern

Bayan Lepas, Pulau Pinang

March 2025 – August 2025

- Contributed to the development of a Virtual Assistant project as a Frontend Developer, designing and implementing user interfaces using React.js to enhance user experience.
- Assisted in backend development by supporting API integration using FastAPI, enabling communication between the frontend and backend services.
- Conducted research on database platforms, evaluating technologies such as MongoDB and PostgreSQL to support backend architecture decisions.
- Collaborated with the development team using Git and GitHub for version control, participated in debugging, and contributed to feature implementation throughout the software development lifecycle.

CYBER CAFE JENGKA 16

Cyber Cafe Technician

Bandar Jengka, Pahang

January 2018 - December 2018

- Diagnosed and resolved hardware and software issues to maintain reliable system performance across customer workstations.
- Configured and maintained game file servers, ensuring stable network connectivity and efficient software deployment.
- Provided excellent customer service, assisting an average of 50+ customers daily, handling payments accurately, and ensuring a seamless user experience.

Education

UNIVERSITI SAINS MALAYSIA

Bachelor of Software Engineering

Gelugor, Pulau Pinang

Present

- Dean's List Award for Academic Excellence (Semester 6, 7 & 8)
- Top 5 - KeSSISWA Social Entrepreneurship Competition, recognized for innovative solutions addressing social issues.
- Bronze Award & Grade A - Final Year Project: *Campus Facilities Management System (CFac)*

KOLEJ MARA KULIM

Foundation in Physical Science

Kulim, Kedah

June 2022

- Dean's List Award for Academic Excellence (Semester 1 & 2)
- Graduated with a CGPA of 4.00.

Skills

Programming Languages: C++, Python, Java, HTML, CSS, JavaScript
Tools/Framework: React, FastAPI, Supabase, PowerBI, Vercel, Render, Git
Platform: VS Code, Dev C++, Photoshop, Figma, Drawlo

Projects

CAMPUS FACILITIES MANAGEMENT SYSTEM

June 2026

Tech Stack: React.js, FastAPI, Supabase, Git, GitHub, Vercel

- Developed a full-stack web application using React.js, FastAPI, and Supabase to manage campus facility bookings, approval workflows, payments, and notifications.
- Implemented role-based access control (RBAC), multi-step approval workflows, booking history tracking, and real-time booking status updates for students, staff, and administrators.
- Integrated RESTful APIs with Supabase to support secure data management and workflow automation, improving booking efficiency and transparency.
- Collaborated using Git and GitHub for version control and team-based development, and deployed the frontend application on Vercel.

HOSTEL COMPLAINT MANAGEMENT SYSTEM

Feb 2026

Tech Stack: React.js, Git, GitHub, Vercel

- Developed a responsive hostel complaint management system using React.js, enabling users to submit and monitor maintenance complaints.
- Built interactive complaint submission forms and an administrative dashboard to streamline complaint tracking and reporting.
- Applied component-based architecture, state management, and responsive UI design to improve maintainability and user experience.
- Managed source code using Git and GitHub and deployed the application on Vercel.

VIRTUAL ASSISTANT

Aug 2025

Tech Stack: React.js, FastAPI, DeepChat, Git, GitHub

- Developed and maintained the frontend of an AI-powered Virtual Assistant using React.js, creating responsive and intuitive user interfaces.
- Integrated frontend components with FastAPI APIs and the DeepChat framework to enable real-time conversational interactions.
- Implemented reusable UI components, chat history management, and frontend performance optimizations to enhance application usability.
- Collaborated with the development team using Git and GitHub for version control, participated in debugging and feature implementation, and deployed the frontend application on Vercel.

Extracurricular Activity

PERMUAFAKATAN SISIWA/I FELDA USM

January 2025

- Head of Academic and Career Exco 2024/2025, Universiti Sains Malaysia
- Project Director of a Forum, PERSADA: Live and Direct 2025

KARNIVAL KEUSAHAWANAN DAN KERJAYA PULAU PINANG

December 2024

- Assistant Head of Registration & Food Department for Ekspo Kerjaya & Pendidikan 2024 (EKSPEN)
- Assistant Head of Registration & Food Department for Karnival Keusahawanan dan Kerjaya Pulau Pinang 2024 (3KPP24)
- Coordinator of Registration & Food Department for Karnival Keusahawanan dan Kerjaya Pulau Pinang 2023 (3KPP23)
